

## Civil/Structural Designer

CIM-Tech, Inc., founded in 2006, has continued to expand its operations and capabilities. Headquartered in Valparaiso, IN, the company proudly serves a diverse range of domestic and international clients across commercial, industrial, and municipal sectors.

We are actively seeking skilled Structural Designers with a proven record of success and applicable experience. The successful applicants will demonstrate the ability to effectively plan and execute work that requires sound judgment and the application of established structural design practices.

### Responsibilities:

- Oversee project engineering and manage routine design aspects for various projects.
- Engage in structural engineering design involving steel structures, reinforced concrete, and foundations.
- Collaborate with internal and external team members to ensure project success.
- Develop and review drawings, conduct site visits, and provide support to the Project Engineer or Senior Project Designer.
- Seek technical guidance on more complex design challenges.

### Requirements:

- Proficiency in AutoCAD at a minimum.
- Experience with SOLIDWORKS, Revit, RISA, and other relevant structural engineering design software is beneficial.
- Excellent problem-solving skills.
- Ability to produce basic technical reports utilizing Microsoft Office tools.
- Self-motivated with a proactive attitude.
- Able to work in a team environment.

### Benefits:

Competitive salary with opportunities for overtime.

Paid vacation time.

Paid holidays.

Medical insurance coverage.

401K plan with company matching contributions.

Short and Long-Term Disability benefits.

**Job Type:** Full-time.

**Schedule:** Standard 8-hour shifts, Monday through Friday.

**Supplemental Pay Opportunities:** Bonuses available.

**Work Location:** In-person/On-site.

For inquiries or to submit an application, please reach out to us at <https://cim-techsvc.com> or 219-476-0302 Ext 114. We look forward to hearing from qualified candidates who are eager to contribute to our dynamic team.
